

4700 SERIES

Composite Patio Door with KD Frame

The 4700 Composite Patio Door with Knockdown Frame combines state-of-the-art technology with ease of use.

Comprised of a heavy-duty composite material, the 4700 patio door boasts exceptional strength with its sturdy frame and cellular panels. The 4700 is unique, reliable, and extremely versatile.

The 4700 patio door's modular design allows for easy purchase, transport, and assembly by a single person. This door comes with hardware upgrades, as well as the option for white blinds between-the-glass.

The 4700 patio door comes with a full non-ProRated LIFETIME WARRANTY with a ten year warranty on blinds.

Construction Innovations

Superior Strength

- Hybrid design incorporating cellular technology

Integrated Insulation

- Cellular material outperforms foam filled

Maintenance Free/Cost Effective

- Never needs painting/refinishing

Ease of Use

- Simple for one person to pick-up, transport, and assemble

Installation

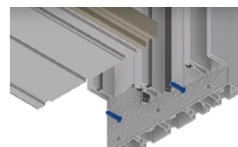

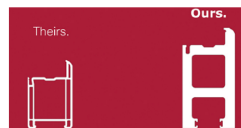

- Each component weights less than 80 lbs; fits in SUV or pickup

Easy Assembly

- Factory-applied gaskets ensure a watertight seal

Guide Pin System (Patent-Pending)

- Factory-applied guide pins ensure proper fit and alignment

In-Stock Options

Blinds Between-the-Glass

- White blinds in stock
- Left and right hand operation available

Upgraded Hardware

- Upgrade to brushed nickel or black hardware
- Located within the bay
