## LowE-2

Glass for all seasons. It insulates in the winter, and blocks heat in the summer.

EnergyStar Zone: North Central

## LowE-2 Solar

Allows natural light in the home while keeping much of the sun's heat out.

EnergyStar Zone: South Central

## LowE-3

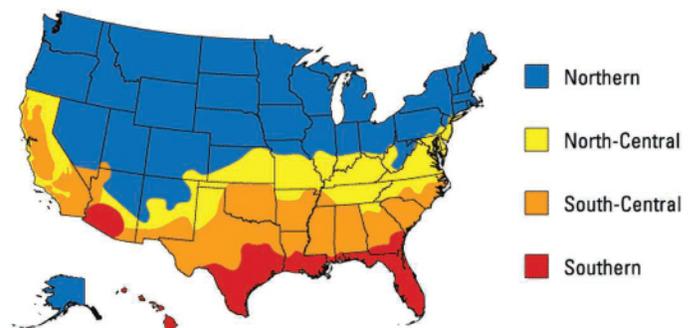

Incorporates a passive solar heat concept to provide a strong level of insulation against winter cold.

EnergyStar Zone: Northern (perspective)

## LowE-4

Engineered to lower the U-factor of standard LowE windows.

EnergyStar Zone: Northern

# PRODUCT SELECTION - DOORS

## 4500 Series

Heavy-Duty Vinyl Sliding Patio Door

The 4500 heavy duty slider is an unmatched, top-of-the-line door.

It was meticulously designed to withstand harsh weather conditions and add a distinguished look to any room.

With a multitude of options for color, hardware, blinds between-the-glass and more, the 4500 is a modern masterpiece.

## 1200 Series

Sliding Vinyl French Door

The 1200 sliding French door features a welded frame, wider stiles & rails and many other aspects that make it the perfect door for aesthetics and security.

Adding blinds between-the-glass is a modern and safe way to make the 1200 an even greater addition to any home.

## 4700 Series

Hybrid Sliding Door

Incorporating a vinyl frame and a superior strength cellular panel, the 4700 series is a wonderfully versatile door.

Its modular design allows for easy purchase, transport and assembly. This series comes with hardware upgrades as well as the option for blind between-the-glass.

## United's Lifetime Warranty

United Window & Door proudly stands behind our superior quality vinyl windows and doors. Our exemplary products come with a reliable LIFETIME NON-PRORATED WARRANTY.

It's why United is the most trustworthy, reliable and honest window and door manufacturer anywhere. We stand by our products, and our products will stand by you.
