Same lead times as white

**Coextrusion for
a Durable Finish**

United Window & Door utilizes a black acrylic coextrusion process in which the black colored acrylic material is bonded together with the vinyl material as it is being formed, resulting in the most permanent bond in vinyl windows to date.

Weatherability combined with thermal efficiency and beautiful aesthetic sightlines makes the 3900 Series the perfect choice for commercial applications.

Single Hung Vinyl Window

3900 Series
