10 Year Warranty on Blinds Between-the-Glass

4700 Series

An Innovative Door

Innovative Design Features

- 1 Choose between standard white or optional **Premium Handles** in satin nickel or black.
- 2 Slides better than other doors; thanks to an innovative **Metal Truck and Monorail System**.
- 3 **Blinds Between the Glass** with slider control and grids between the glass are premium upgrades.
- 4 Patent-Pending, **Guide Pin System** helps construct the 4700 Series Door.
- 5 The steel reinforced **Extra Thick Composite Door** offers increased security and stability.
- 6 The mainframe **Sill with Weep Holes** keeps water out of the house.
