

FACTORY ASSEMBLED **PTAC Window Unit** **Packaged Terminal Air Conditioner**

United PTAC units simplify your window and AC installations. You'll save time and money on personnel and rough-out materials.

United PTAC units are assembled at the factory and come ready to be installed into a single rough opening. Our units consist of a fully welded vinyl frame custom-built around the PTAC louver and then mullered to the window of your choice. The louver is designed to match the sleeve of the PTAC.
